

Florida students make gains with Imagine Learning

Student engagement coupled with powerful assessment leads to better outcomes

Say hello to proven results for **Pre-K through middle-school students**, with dynamic instruction that's research-based, strategically scaffolded, and incredibly engaging to use.

Imagine Language & Literacy delivers personalized instruction that adapts to each student's unique needs. With over **4,300 engaging activities** and **support in 15 languages**, the program builds powerful academic language and literacy skills and accelerates student achievement.

Galileo® K-12 Assessment

Imagine Language & Literacy's effective, engaging instruction is now enhanced with Galileo K-12's comprehensive assessment system.

- Universal screener utilizes benchmark assessments
- Progress monitoring through formative assessments
- Predictions to state or national test proficiency
- Dyslexia screening toolkit

Language Development

Accelerate sophisticated academic and discipline-specific language development through reading, writing, listening, and speaking

- Develops targeted academic vocabulary
- Teaches discipline-specific vocabulary
- Provides contextualized general vocabulary
- Supports English learners in 15 languages

ELEVATE POTENTIAL

Guiding the Learning Journey Together

At Riverside Insights®, we share your commitment to helping individuals elevate their learning potential—from early childhood, throughout their academic journeys, and for the rest of their lives.

Assessments play a critical role in this effort by providing actionable insights, derived from accurate, reliable, and consistent data that create opportunities to help people thrive. This is why we offer trusted and precise assessment solutions that provide the clarity and perspective needed to have a meaningful impact.

Clarity—Data-driven decisions require unambiguous results. Our assessment solutions are trusted by professionals across the country and around the world to deliver exceptional visibility into performance and potential.

Perspective—We deliver quality data that comes from proven assessment design and instruction to help you build high-value, longitudinal perspectives, but we also provide a wealth of seasoned clinical and academic expertise to help you translate that data into insights and action.

Impact—Whatever it takes, we're dedicated to supporting your efforts to improve outcomes and make a measurable difference with personalized service at every step. We also can help you simplify and streamline your assessment efforts to make the most of limited time and resources.

Riverside Insights® is the new name of Houghton Mifflin Harcourt's former clinical and standardized testing business, which was divested from HMH in October 2018 and is now independent.
